II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Asset Allocation

Under the normal circumstances, the asset allocation (% of Net Assets) of Scheme's portfolio will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Securities covered by Nifty 8-13 Yr G-Sec Index	95%	100%
Debt and Money market instruments*, cash and cash equivalents	0%	5%

**Money market instruments include, but are not limited to Treasury Bills, Commercial Paper of Public Sector Undertakings and Private Sector Corporate Entities, Term Money, Tri-party repo, Certificates of Deposit of Scheduled Commercial Banks, Financial Institutions and Development Financial Institutions, Government securities with unexpired maturity of one year or less and other Money Market securities as may be permitted by SEBI / RBI from time to time and in the manner prescribed under the Regulations.*

The net assets of the scheme will be invested predominantly in securities constituting the Nifty 8-13 Yr G-Sec Index. This would be done by investing in all securities with the same weightage that they represent in the Nifty 8-13 Yr G-Sec Index.

A small portion of the net assets will be invested in Debt and money market instruments permitted by SEBI / RBI including call money market or in alternative investment for the call money market as may be provided by the RBI, to meet the liquidity requirements of the scheme.

The Scheme does not intend to undertake/ invest/ engage in the following:

S.No.	Type of Instrument	Percentage of exposure	Circular references
1.	Derivatives	The Scheme will not invest/engage in these instruments.	
2.	Securitized Debt		
3.	Short selling of securities		
4.	Stock Lending and Borrowing		

5.	Repo in corporate debt	
6.	Unrated instruments (except TREPs/ Government Securities/ SDL / Repo in Government Securities);	
7.	Foreign securities/ADR/GDR	
8.	REITs and InvITs	
9.	Instruments having Special Features as defined in SEBI Circular no. SEBI/HO/IMD/DF4/CIR/P/2021/032 dated March 10, 2021;	
10.	Credit Enhancements & Structured Obligations; and	
11.	Credit Default Swap transactions	

The cumulative gross exposure through government securities, repo transactions, money market instruments and such other securities/assets as may be permitted by the Board from time to time, subject to regulatory approvals if any, should not exceed 100% of the net assets of the scheme.

However, cash and cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

The Scheme shall be considered to be replicating the underlying index, provided:

- i. The duration of the portfolio of Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
- ii. ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/-10% of maturity range of the index.

Portfolio Rebalancing:

As per SEBI Circular dated May 23, 2022, the Scheme shall be considered to be replicating the index if the duration of the portfolio of the Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.

Post any transactions undertaken in the scheme portfolio, in order to meet the redemption and subscription obligations, it shall be ensured that replication of the portfolio with the index is maintained at all points of time, subject to permissible deviations.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimise the Tracking Error to the maximum extent possible.

- In case of change in constituents of the index due to periodic review, the portfolio of the scheme shall be rebalanced within 7 calendar days.
- In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio can be rebalanced within 30 calendar days.
- In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/160 dated December 28, 2018 on “Creation of segregated portfolio in mutual fund schemes.

Change in Asset Allocation:

The above mentioned investment pattern is indicative and subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may vary from time to time, on account of receipt of maturity proceeds, interest and/or receipt of subscription. As per SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021, the Fund Manager, may deviate from the above investment pattern for a short term period on defensive considerations. The same will be rebalanced within 7 Business Days and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

Short term defensive consideration:

Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 07 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

Timelines for deployment of Funds mobilized in a New Fund Offer (NFO)

Pursuant to SEBI Circular dated February 27, 2025, the funds mobilized during the New Fund Offer (NFO) shall be deployed in accordance with the asset allocation pattern of the scheme within 30 business days from the date of allotment of units. In exceptional cases where the AMC is not able to deploy the funds within this period, shall provide an explanation, including details of the efforts made to deploy the funds, to the Investment Committee of the AMC. The Investment Committee may extend the deployment timeline by up to 30 business days and shall provide recommendations to ensure timely deployment in the future.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest its corpus in the below instruments:

1. Securities which are constituents of Nifty 8-13 Yr G-Sec Index
2. Tri-Party Repo on Government Securities
3. T-bills/Repo & Reverse Repo
4. Other money market instruments*
5. Cash & Cash equivalents.

**Money market instruments include, but are not limited to Treasury Bills, Commercial Paper of Public Sector Undertakings and Private Sector Corporate Entities, Term Money, Tri-party repo, Certificates of Deposit of Scheduled Commercial Banks, Financial Institutions and Development Financial Institutions, Government securities with unexpired maturity of one year or less and other Money Market securities as may be permitted by SEBI / RBI from time to time and in the manner prescribed under the Regulations.*

Please refer to Section II in page no. 34 to 36 for more details on the above instruments.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Zerodha Nifty 8-13 yr G-Sec ETF is an open-ended exchange-traded fund that seeks to align its performance with that of the Nifty 8-13 yr G-Sec Index by adhering to a passive, index-based investment methodology. The Scheme aims to replicate the index by investing primarily in the Government Securities that comprise the benchmark, in approximately the same proportion.

A minimum of 95% of the Scheme's total assets will be invested in securities forming part of the underlying index. The remainder may be allocated to money market instruments to manage liquidity, cash flow needs, or operational expenses.

As a passively managed product, the Scheme does not seek to outperform the index or adopt tactical allocation based on interest rate or macroeconomic views. There is no active security selection, and investment decisions are not influenced by short-term market movements or forecasts.

Temporary deviations from the index composition may occur, particularly around reconstitution or rebalancing events. In such cases, the portfolio shall be rebalanced by AMC within 7 days from the date of said deviation.

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

PORTFOLIO TURNOVER:

Portfolio Turnover measures the volume of trading that occurs in a Scheme's portfolio during a given time period. The Scheme is an open-ended Exchange Traded Fund and it is expected that there may be a number of subscriptions and repurchases on a daily basis through Stock Exchange(s) or Market Makers and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty 8-13 yr G-Sec Index. However, it will be the endeavor of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.

Portfolio Turnover Ratio: Not Applicable

D. HOW WILL SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark for the Scheme is Nifty 8-13 yr G-Sec Index.

This index has been selected because its constituents represent the specific maturity and risk characteristics targeted by the Scheme. It offers a suitable standard against which the Scheme's performance can be measured over time.

Please refer to the Section on Index Methodology at Page No. 40 to 41 for more details.

E. WHO MANAGES THE SCHEME?

III. OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

NAV of Units of under the Scheme shall be calculated as shown below:

NAV (₹) per Unit =

Market or Fair Value of the Scheme's Investments + Current Assets - Current Liabilities and Provisions
No. of Units outstanding under each Scheme

The NAV of the Scheme will be calculated and disclosed at the close of every Business Day.

The NAV of the Scheme will be calculated up to 4 decimal places.

Methodology for calculation of sale and repurchase price.

Pursuant to SEBI circular no. *SEBI/HO/IMD/DF2/CIR/P/2018/92* dated June 05, 2018 on "Go Green Initiative in Mutual Funds", the methodology of calculating the sale and repurchase price of units is explained with an illustration below:

A) Sale Price:

The Sale Price for a valid purchase will be the Applicable NAV of the respective Scheme i.e. Sale Price = Applicable NAV.

For a valid purchase request of ₹ 10,000, where the applicable NAV is ₹ 10, the units will be allotted as below:

Purchase Amount - ₹ 10,000
Applicable NAV - ₹ 10
No. of Units - 1,000 Units (<i>Purchase Amount/Applicable NAV</i>)

Please note that the entry load has been abolished with effect from August 01, 2009 vide SEBI Circular no. *SEBI/IMD/CIR No. 4/ 168230/09* dated August 01, 2009. Hence, Sale price is equal to the applicable NAV.

B) Repurchase Price:

The Repurchase Price for a valid repurchase will be the applicable NAV reduced by any exit load (say 1%, if redeemed before completion of 1 year). i.e. applicable NAV - (applicable NAV X applicable exit load)

For a valid repurchase request where the applicable NAV is ₹ 10, the repurchase price will be as follows :

Applicable NAV - ₹ 10
Exit Load - 1%
$= 10 - (10 \times 1\%)$
$= 10 - (0.1)$
= ₹ 9.9

Therefore, for the repurchase for 1,000 units, the Investor will receive the proceeds as given below:

No. Of Units - 1,000
Repurchase Price = ₹9.9
$= 1000 \times 9.9$
= ₹ 9,900

Note: Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration(s).

The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV provided that the difference between the Redemption Price and the Subscription /Purchase Price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time, which is currently 5% calculated on the Subscription/ Purchase Price. The Purchase Price shall be at applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. kindly refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like marketing and advertising, Brokerage, registrar expenses, printing and stationery, bank charges etc.

The New Fund Offer expenses of the scheme will be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses incurred for the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs, listing fee, etc.

The AMC has estimated that the following expenses will be charged to the Scheme as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund viz. www.zerodhafundhouse.com

Expense Head	% of daily net assets (estimated) (p.a.)
Investment Management and Advisory Fees	Upto 1.00%
Audit fees/fees and expenses of trustees ¹	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to Investor Communication	
Cost of fund transfer from one location to another	
Cost towards investor education and awareness ²	
Brokerage and Transaction cost over and above 0.12% and 0.05% on value of trades for cash and derivative market trades only	
GST on expenses other than Investment Management and Advisory Fees ³	
GST on brokerage and transaction cost ³	
Other Expenses	
Maximum Total Expense Ratio (TER) permissible under Regulation 52 (6) ⁴	Upto 1.00%

¹ Trustee Fees and Expenses

In accordance with the Trust Deed constituting the Mutual Fund, the Trustee is entitled to receive, in addition to the reimbursement of all costs, charges, and expenses, a yearly fee of ₹ 1. Such fee shall be paid to the Trustee within seven working days of the end of every year. The Trustee may charge further expenses as permitted from time to time under the Trust Deed and SEBI (MF) Regulations.

² Investor Education and Awareness initiatives

As per SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 read with SEBI Circular no. SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, the AMC shall annually set apart 5% of total TER charged to direct plans, subject to maximum of 0.5 bps of AUM for passive schemes as defined under the circular dated December 31, 2024, within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken.

³ Refer Point (3) below on GST on various expenses.

⁴ The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively.

The purpose of the above table is to assist the Investor in understanding the various costs and expenses that an Investor in the Plan(s) under the Scheme will bear directly or indirectly. The figures in the table above are estimates. The actual expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI (MF) Regulations.

GST

As per Para B of the SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012, GST shall be charged as follows: -

- GST on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
- GST on other than investment management and advisory fees, if any, shall be borne by the Scheme within the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
- GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations.

The total expenses of the Scheme including the Investment Management and Advisory Fee shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations.

The mutual fund would update the current expense ratios on the website (www.zerodhafundhouse.com) at least three working days prior to the effective date of the change and update the TER under the Section titled "Statutory Disclosures" under the sub-section titled "Total Expense Ratio of Mutual Funds".

Illustration: Impact of Expense Ratio on Scheme's return

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate the above, for the Scheme under reference, suppose an Investor invested ₹ 10,000/- (after deduction of stamp duty) under the Direct Plan, the impact of 1% expenses charged will be as under:

Particulars	Direct Plan
Amount invested at the beginning of the year (Rs.)	10,000
Returns before expenses (Rs.)	1,500

Expenses (Rs.)	115
Returns after expenses at the end of the year (Rs.)	11,385
Returns (per annum in %)	13.85%

Note(s):

- *The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Plan(s) under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.*
- *It is assumed that the expenses charged are evenly distributed throughout the year.*
- *Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.*
- *Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice.*

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of SEBI Circular dated October 22, 2018 on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.zerodhafundhouse.com).

Details of Load Structure:

Type of Load	Load Chargeable (% of NAV)
Exit / Redemption Load	Nil

The Trustee / AMC reserves the right to modify / change the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund.

Any imposition or enhancement of Exit Load in the load shall be applicable on prospective investments only. At the time of changing the load structure the AMC / Mutual Fund may adopt the following procedure:

- The addendum detailing the changes will be attached to Scheme Information Document and Key Information Memorandum and displayed on our website www.zerodhafundhouse.com.

- (ii) The introduction of the Load along with the details will be mentioned in the acknowledgement issued to the investors on submission of the application and will also be disclosed in the Account Statement or in the covering letter issued to the Unit holders after the introduction of such Load.
- (iii) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated. Any other measures which the mutual fund may feel necessary

SECTION - II

I. Introduction

A. Definitions/Interpretations

In this Scheme Information Document, the words and expressions shall have the meaning specified in the following link, unless the context otherwise requires.

<https://www.zerodhafundhouse.com/resources/disclosures/>

B. Risk Factors

Scheme Specific Risk Factors

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following:

Risk associated with Exchange Traded Fund:

- a) **Absence of Prior Active Market:** Although the units of ETFs are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- b) **Lack of Market Liquidity:** Trading in units of ETFs on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the ETF Units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit breaker' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.
- c) **Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of the ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created / redeemed in Creation Units, directly with the fund and disclosure of iNAV as stipulated by regulations, large discounts or premiums to the NAVs may not be sustainable.
- d) **Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect ability of the market maker to arbitrage resulting into wider premium/ discount to NAV. Although Zerodha Nifty 8-13 yr G-Sec ETF is listed on Exchange, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on Exchange / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.

- e) Political Risks: Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
- f) Right to Limit Redemptions: The Trustees, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total “Saleable Underlying Stock” available with the fund.
- g) Redemption Risk: The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus, unit holdings less than the Creation Unit size can normally only be sold through the secondary market except situations mentioned under ‘Exit opportunity in case of an ETF for investors other than Market Makers and Large Investors’ in the SID.
- h) Asset Class Risk: The returns from the types of securities in which a Scheme invests may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and underperformance in comparison of the general securities markets.
- i) Passive Investments: As the Scheme is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgement about the investment merit nor shall attempt to apply any economic, financial or market analysis.
- j) Tracking Error/ Tracking Difference Risk: Tracking Error & Tracking Difference may arise including but not limited to the following reasons:
- Expenditure incurred by the fund.
 - The holding of cash positions. The fund may not be invested at all time as it may keep a portion of the funds in cash to meet redemptions.
 - The fund will deploy available funds into TRI-PARTY REPO at various points during the day, which may differ from weighted average rate published by CCIL at end of the day (considered for index return computation).
 - Execution of large buys / sell orders.
 - Transaction cost.
 - Realization of Unit holders funds.

Risk specific to investing in securities forming part of Nifty 8-13 Yr G-Sec ETF:

- a. Zerodha Nifty 8-13 Yr G-Sec ETF is a passively managed ETF i.e., the amount collected under the scheme is invested in securities comprising the underlying index in the same weightages as they have in the underlying index.
- b. The composition of the underlying index is subject to changes that may be affected periodically by the Index Service Provider.
- c. Performance of the underlying index will have a direct bearing on the performance of the scheme.
- d. The extent of the Tracking error may have an impact on the performance of the scheme.

Tracking Error Risk: The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the respective scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index.

Tracking Difference Risk: The Fund Manager may not be able to invest the entire corpus exactly in the same proportion as in the underlying index or goods due to certain factors such as the fees and expenses of the scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. Tracking Difference is the Difference of returns between the Scheme and the Benchmark Index annualized over 1 year, 3 Year, 5 Year, 10 year and Scheme Since Inception period.

The fund manager will endeavour to limit the tracking difference over one-year period within 1.25%. In case the average annualized tracking difference over the 1-year period for Scheme is higher than 1.25%, the same will be brought to the notice of trustees with corrective actions taken by the AMC. However, there can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error/ difference relative to performance of the Underlying Index. Tracking Difference shall be disclosed only if the scheme has completed 1 year period. The Tracking difference shall be disclosed on a monthly basis on the AMC's website viz. www.zerodhafundhouse.com and AMFI website www.amfiindia.com.

Risks associated with Debt and Money Market Instruments or Fixed Income Securities

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Price-Risk or Interest-Rate Risk: From the perspective of coupon rates, debt securities can be classified in two categories, i.e. Fixed Income Bearing securities and floating rate securities. In Fixed Income bearing securities, the coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand,

the coupon rate changes - 'floats' – with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

However, debt securities in the scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.

Floating rate securities issued by a government have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimising interest rate risk on a portfolio.

Liquidity Risk: The Indian debt market is such that a large percentage of the total traded volumes on particular days might be concentrated in a few securities. Traded volumes for particular securities differ significantly on a daily basis. Consequently, the scheme might have to incur a significant “impact cost” while transacting large volumes in a particular security.

Reinvestment Risk: Investments in fixed income securities carry reinvestment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements. This may result in loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. During the tenure of the security this spread may move adversely or favourably leading to fluctuations in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Risk of Rating Migration: It may be noted that the price of a rated security would be impacted with the change in rating and hence, there is risk associated with such migration.

The following table illustrates the impact of change of rating on the price of a hypothetical ‘AA’ rated security with a maturity period of 3 years, a coupon of 9.00% p.a. and a market value of ₹ 100. If it is downgraded to ‘A’ category, which commands a market yield of, say, 10.00% p.a., its market value would drop to ₹ 97.51 (i.e. 2.49%) If the security is up-graded to ‘AAA’ category which commands a market yield of, say, 8.00% p.a. its market value would increase to ₹ 102.58 (i.e. by 2.58%). The

figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
Existing Rating of AA	9.00	100.00
If upgraded to AAA	8.00	102.58
If downgraded to A	10.00	97.51

Counterparty and Settlement Risk: Counterparty and settlement risk is the probability that the other party may not fulfil its part of the deal and may default on the contractual obligations. This risk comprises credit and liquidity risk both. Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of TREPS transactions where CCIL stands as central counterparty on all transactions (no settlement risk). Settlement risk in reverse repo will be mitigated by requiring the counterparty (entity borrowing funds from the Mutual Fund) to deliver the defined collateral in the account of the MF before the cash is lent to the counterparty. Further, the Mutual Fund will also have a limited universe of counterparties, but not limited to, comprising of Scheduled Commercial Banks, Primary Dealers, Mutual Funds and National Financial Institutions.

Legislative Risk: Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the scheme.

Prepayment risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

Risks associated with investing in Tri Party Repo through CCIL (TREPS)

The mutual fund is a constituent member of the securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilised to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilisation of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risks associated with investing in Long term Government of India Securities

Interest rate risk: When interest rates rise, bond prices fall; conversely, when rates decline, bond prices rise. The longer the time to a bond's maturity, the greater will be its interest rate risk. Since the scheme would invest in government securities having maturity from 8 years to 13 years, interest rate risk would remain.

Inflation risk: Inflation causes tomorrow's money to be worth less than today's; in other words, it reduces the purchasing power of a bond investor's future interest payments and principal, collectively known as "cash flows." Inflation also leads to higher interest rates, which in turn leads to lower bond prices.

Legislative risk: The risk that a change in the tax code could affect the value of taxable or tax-exempt interest income.

Liquidity risk: The risk that the fund may have difficulty finding a buyer when they want to sell and may be forced to sell at a significant discount to market value.

Risk factors associated with processing of transactions through Stock Exchange Mechanism

The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other authorised Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing /settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s). Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of units. The Fund and the AMC are not responsible for the negative impacts.

Risks associated with segregated portfolio:

The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange.

The risks associated in regard to the segregated portfolio are as follows:

- A. The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer.
- B. The security comprising the segregated portfolio may not realise any value.
- C. Listing units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange.
- D. The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

E. Risk Mitigation Strategies

The AMC incorporates necessary framework in place for risk mitigation at an enterprise level, and scheme level in accordance with the Risk Management Framework prescribed by the SEBI. The Risk Management division of the AMC is an independent division within the organisation. Internal risk thresholds are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. The Risk Management Committee of the Board enables a dedicated focus on risk factors and the relevant risk mitigants from time to time. In addition, to minimise the major risks, the following measures are taken:

Risk description	Risk mitigation
Debt and Money Market instruments	<ul style="list-style-type: none"> • Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: Securities invested in are short term in nature thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: TREPS and Sovereign securities do not have rating and other eligible money market instruments and overnight funds the scheme have time to maturity lower than 91 days which results in a very low probability of rating migration. This risk is generally associated with long-term securities. • Basis Risk: Securities invested in are fixed rate securities and hence basis risk does not apply. This risk is generally associated with floating rate securities and has a higher bearing on long-term securities.

	<ul style="list-style-type: none"> • Spread Risk: Securities invested in are fixed rate securities and hence spread risk does not apply. This risk is generally associated with floating rate securities and has a higher bearing on long-term securities. • Reinvestment Risk: Scheme will primarily invest in securities maturing below 91 days. Reinvestment risk becomes more prevalent in long-term securities and lower time to maturity reduces the impact for the scheme. • Liquidity Risk: The Scheme will primarily invest in TREPS, government securities, overnight funds and other money market instruments thereby limiting liquidity risk. The liquidity risk for government securities and money market instruments may be low.
Segregated Portfolio	In such an eventuality it will be AMC's endeavour to realise the segregated holding in the best interest of the investor at the earliest.
Tracking Errors	Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavour to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Risks associated with investing in Tri Party Repo through CCIL (TREPS)	As a member of the securities segment and Tri Party repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades, etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.

II. Information about the Scheme

A. Where will the Scheme Invest

The Scheme will invest in securities which are constituents of Nifty 8-13 Yr G-Sec Index and other money market instruments*.

**Money market instruments include, but are not limited to Treasury Bills, Commercial Paper of Public Sector Undertakings and Private Sector Corporate Entities, Term Money, Tri-party repo, Certificates of Deposit of Scheduled Commercial Banks, Financial Institutions and Development Financial Institutions, Government securities with unexpired maturity of one year or less and other Money Market*

securities as may be permitted by SEBI / RBI from time to time and in the manner prescribed under the Regulations.

Debt and Money Market Instruments:

Listed debt or money market securities, in accordance with seventh schedule to the SEBI (Mutual Funds) Regulations, SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019 and other guidelines/ circulars as may be amended from time to time.

Tri-party repo (TREPS)

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a TriParty Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates borrowing and lending of funds, in a Tri-Party Repo arrangement.

Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short-term borrowings. CP is traded in the secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short-term borrowing requirements. T-Bills are generally issued for maturities of 7 days, 14 days, 91 days, 182 days and 364 days.

Repo

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, G-Secs, State Government securities and T-Bills are eligible for Repo/Reverse Repo.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in coordination with the RBI.

Non-convertible debentures and bonds

Non-convertible debentures as well as bonds are securities issued by companies / Institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long-term fund requirements. The Scheme may also invest in the non-convertible part of convertible debt securities.

Floating rate debt instruments

Floating rate debt instruments are instruments issued by Central / state governments, corporates, PSUs, etc. with interest rates that are reset periodically.

Investment in Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity.

The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations. Pursuant to SEBI Circular No. MFD/CIR/9/120/2000 dated November 24, 2000; the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. However, in case any unrated debt security does not fall under the parameters, the prior approval of the Board of AMC and Trustee shall be sought.

Investments in Debt and Money Market Instruments will be as per the limits specified in the asset allocation table(s) of the Scheme, subject to permissible limits laid under SEBI (MF) Regulations from time to time.

For applicable regulatory investment limits please refer to below paragraph "What are the Investment Restrictions".

B. What are the investment restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

As per Clause 1 of the Seventh Schedule of MF Regulation, the Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market

instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

Provided that above limit shall not be applicable for investments in Government Securities, treasury bills and tri party repo on Government securities or treasury bills.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the SEBI from time to time.

1. The Scheme may invest in another scheme under the same AMC without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund.
2. The Scheme shall not make any investments in:
 - a. any unlisted security of an associate or group company of the Sponsors; or
 - b. any security issued by way of private placement by an associate or group company of the Sponsors; or
 - c. the listed securities of group companies of the Sponsors which is in excess of up to 25% of the net assets.
3. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:
 - a. such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
 - b. the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
 - c. IST purchases would be allowed subject to the guidelines as specified in SEBI Circular SEBI/HO/IMD/DF4/CIR/P/2020/202 dated October 08, 2020.
4. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

5. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
6. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
7. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
8. In accordance with the guidelines as stated under SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:
 - i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.
 - ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
 - iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
 - a. Investments should only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
9. Pursuant to SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 replication of the Index by the Scheme shall be as follows:
 - i. The duration of the portfolio of ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
 - ii. ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/- 10% of maturity range of the index.
 - iii. In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply:
 - a) For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher.

- b) For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher.
 - c) However, at no point of time, the residual maturity of any security forming part of the
 - d) portfolio shall be beyond the target maturity date of the ETF/ Index Fund.
- iv. For an index based on G-Sec and SDLs, a single issuer limit shall not be applicable.

The Scheme shall endeavour to follow the guidelines prescribed under SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 and circular issued thereunder from time to time.

These investment restrictions shall be applicable at the time of investment. Changes, if any, do not have to be effected merely because, owing to appreciating or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any Schemes of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall as soon as possible take appropriate corrective action, taking into account the interests of the Unit holders.

In addition, certain investment parameters may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations. Further, apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund may follow any internal norms vis-à-vis restricting / limiting exposure to a particular scrip or sector, etc.

C. Fundamental Attributes

D. Index methodology

The performance of the scheme will be benchmarked against the Nifty 8-13 yr G-Sec Index TRI.

About the Index

The NIFTY 8-13 yr G-Sec Index provides broad representation of the Government of India bonds having maturity of around 10 years. The index aims to capture the performance of the most liquid bonds with maturities between 8-13 yr. One of the key highlights of the index is that it represents the most active tenor of the Indian G-Sec market.

Highlights

- The index has a base date of January 03, 2011 and a base value of 1000.
- The index seeks to measure the performance of the most liquid bonds with maturities between 8-13 yrs.
- The index is reconstituted on a monthly basis.
- The index is calculated and disseminated on a real time basis.
- The index methodology considers liquidity and issue size to ensure that the NIFTY 8-13 Yr GSec Index remains investable and replicable.
